WELCOME

to the PRAJNA Advanced Studies Program

Thank you for your interest in the PRAJNA's Advanced Studies Programs. Our school offers Universal Yoga® and Pilates Teacher Training Programs. Whether you choose our yoga training or dive into the Pilates training, our programs help practitioners develop a well-formed and mature practice, focusing not just on the physical aspects of yoga and Pilates but including the body, breath, mind, and spirit connection. You may intend to simply deepen your understanding of the practices or you aspire to teach and share with others; our training will prepare you for your journey.

We consider the study of Pilates and yoga a science—continually evolving. There is a common saying in the yoga community, “When the student is ready, the teacher appears.” If you are drawn to this program, it is most likely because you are ready for the teachings.

Our Pilates program is based on the classic teachings of Joseph Pilates. PRAJNA provides a comprehensive training on the matwork and apparatus. The program is set up as three modules. The fundamentals, principles, and matwork is included in Module 1. Upon successful completion of the matwork program, graduates will be qualified to apply to take the NPCP Pilates Mat Certification Exam which would award the title of Pilates Mat Certified (NPCP-PMC) upon passing exam.

For those wishing to continue on the Pilates' journey, Module 2 covers the apparatus including the reformer, cadillac, and chair. Module 3 is for those wishing to complete their full certification and includes the ladder barrel, pedi-pole, and other smaller props. Upon successful completion of the full program, graduates will be qualified for the option to take the National Pilates Certification Program exam and become a National Pilates Certified Teacher (NCPT).

As a Pilates teacher for many years now, I have seen how this system can be utilized for all ages and fitness levels from pre-teens who have injured their bodies during extra-curricular activities; office workers; doctors; mothers who have developed poor posture from daily life; middle-aged athletes who have lost their edge; and seniors citizens who can hardly walk. The list can go on and on. It is a great compliment to yoga as both systems focus on body, mind, and breath, while the Pilates equipment offers a unique way to train the physical body that are missed on a yoga mat alone.

We are honored you are considering our programs. An amazing journey awaits you including the benefits you gain from regular practice and the effects they have on everyday life. Our many years of practice and teaching experience will ensure you a rewarding adventure. We are looking forward to practicing with you.

In health,

Sheri

What is Pilates?

Pilates is an exercise system developed by Joseph Pilates. As a child, Pilates suffered from a variety of ailments and became obsessed with becoming healthy. He studied various forms of physical fitness including boxing, fencing, wrestling, gymnastics, yoga, and zen meditation. Eventually, Pilates pulled these forms of exercise together and developed his own method called Contrology. Today, his method is named after him and is known the world over as Pilates.

Joseph Pilates' philosophy, as stated in his 1945 book, *Return To Life*, is a vision of health and well-being that gives a context to his exercises. There are three guiding principles: whole body health, whole body commitment, and breath.

Whole Body Health

“Physical fitness is the attainment and maintenance of a uniformly developed body with a sound mind fully capable of naturally, easily, and satisfactorily performing our many and varied tasks with spontaneous zest and pleasure.” —Joseph Pilates

Whole Body Health refers to the development of the body, the mind, and the spirit in complete coordination with each other. Mr. Pilates wrote that the Whole Body Health could be achieved through exercise, proper diet, good hygiene and sleeping habits, plenty of sunshine and fresh air, and a balance in life of work, recreation, and relaxation.

Whole Body Commitment

“To achieve the highest accomplishment within the scope of our capabilities in all walks of life, we must constantly strive to acquire strong, healthy bodies and develop our minds to the limit of our ability.” —Joseph Pilates

“Faithfully perform your Contrology exercises only four times a week for just three months...you will find your body development approaching the ideal, accompanied by renewed mental vigor and spiritual enhancement.” —Joseph Pilates

Whole Body Commitment is mental and physical discipline, a work ethic, an attitude toward one's self, and assuming a lifestyle that is necessary to achieve Whole Body Health.

Breath

*“Above all, learn how to breathe correctly.”**

*—Joseph Pilates as told to Ron Fletcher

The breath is an integral part of overall body functioning, increasing volume capacity, oxygenation and other physiological changes. Full consistent inhalation helps the circulatory system nourish all the tissues with oxygen-rich blood while carrying away impurities and metabolic waste. Pilates referred to this cleansing mechanism as the “internal shower” which results in mental and physical invigoration and rejuvenation.

The Pilates Movement Principals

“Physical fitness is the first requisite of happiness.” —Joseph Pilates

In Pilates, as in yoga, there is a powerful mind-body connection. The mind and the body must actively engage to achieve physical fitness in the Pilates exercise regime.

The following Pilates Movement Principals are integral in achieving this mind-body connection:

- | | |
|------------------------------|----------------|
| ~Whole Body Movement | ~Breathing |
| ~Balanced Muscle Development | ~Concentration |
| ~Control | ~Centering |
| ~Precision | ~Rhythm (flow) |

The body is organized to move by centering. Balanced muscle development allows efficient movement and proper joint mechanics. Constant mental concentration is required to fully develop the body. Precision, meaning exact, defined, specific, intentional movement, is necessary for correct form. Only a few repetitions of each exercise are appropriate so that each repetition can be performed with a greatest control, using only the necessary muscles and effort necessary for each movement. Breathing promotes natural movement and rhythm and stimulates muscles to greater activity. Performance of the Pilates exercises is distinguished by always using the whole body.

As such, Pilates aids in strength, posture, flexibility, and concentration. These attributes not only ease the aches and pains of everyday life, they are sought after by top athletes looking to perfect their capabilities.

Goals and Benefits

“One of the major results of Contrology is gaining the mastery of the mind over the complete control of your body.” —Joseph Pilates

The Guiding Principles and Movement Principles facilitate long-term goal achievement. The benefits are both measurable and perceived:

- Coordination
- Strength
- Mobility
- Efficient movement
- Flowing movement
- Proper posture
- Mental and spiritual rejuvenation
- Self awareness
- Self confidence
- Restoration of natural animal movement
- Integration of mind, body, and spirit
- Sense of well-being
- Enhanced quality of life

About the Pilates Teacher Training Program

The PRAJNA Pilates Teacher Training provides a solid foundation in Pilates. The goal of this program is to prepare participants on how to safely and successfully instruct individual clients and group classes. This is also for individuals wanting to have the knowledge to have a well-designed in-studio or home practice.

The program is set up in three modules, each one building on the previous.

Module 1: Fundamentals, Principles, and Matwork (100 hours)

Module 1 is the foundation course and includes:

- History of Pilates Method
- Pilates Core Principles and Fundamentals
- Anatomy
- 34 established Pilates Mat Exercises
- Modifications, Variations, and Progressions for All Levels
- Contraindications
- Cueing
- Creating a Class Plan
- Observation hours (student observes an experienced teacher)
- Practice Teaching (under the guidance of an experienced teacher)
- Self-Practice hours
- Final Exam

After successfully completing Module 1, a PRAJNA Pilates Matwork Certificate is issued to instructors who attend all lectures, pass all assessments/exam (80% needed to pass), and submit the required logged hours. This qualifies the graduate to teach Pilates matwork classes. There are no prerequisites for Module 1, but previous exposure to Pilates is recommended. Successful completion of Module 1 is a pre-requisite to taking Module 2. All logged self-practice, observation, and practice teaching hours must be completed before the final exam (Complete/Incomplete). (Additional fees will be charged for participants needing to utilize the studio beyond the scheduled time frame.)

Upon successful completion of Module 1, students may also apply to take the NPCP Pilates Mat Certification Exam. Candidates that pass the NPCP Pilates Mat Certification Exam are awarded the title of Pilates Mat Certified (NPCP-PMC).

Module 2: Apparatus Part 1 (250 hours)

Successful completion of Module 1 is mandatory prior to taking Module 2. Module 2 includes training on the following Apparatus:

- Reformer
- Cadillac (Trapeze Table)
- Wunda Chair

Upon successful completion of Module 2, a PRAJNA Pilates Apparatus Certificate of Completion is issued to instructors who attend all lectures, pass all assessments, and submit the required logged hours. They will have the qualifications to start their apprenticeship teaching on the apparatus, but are not qualified to apply to take the National Pilates Certification Program exam.

This comprehensive program is designed to build on the key concepts of Pilates that were introduced in Module 1. Participants will learn a full program for the Reformer, Cadillac (trapeze table), and Chair, along with why to choose one apparatus over another in various circumstances. Participants will learn how to utilize Pilates to work with

modern-day people and the adjustments for different lifestyles and populations. This course will also discuss how to teach, not just what to teach. Participants who complete the program will have the tools to teach successfully.

For individuals wanting to learn how to use the apparatus for home use, but don't want to teach others, this would also be a good fit. Anyone can purchase Pilates equipment, but just because one has the equipment doesn't mean they are practicing Pilates. There is a difference between Pilates and just plain exercises. This program will point out how to turn exercise into Pilates.

Students are required to attend all scheduled lectures and make up any missed sessions through one-on-one mentoring with one of the faculty members at the student's own expense. Observation, self-practice, and practice-teaching hours are scheduled separately each week during regular studio hours. Students are expected to start observation and self practice hours within the first two weeks of the start of the program. Practice teaching hours are to be started within 30 days of the start of the program. Students are required to put in observation, self-practice, and practice-teaching totaling at least 10 hours weekly. Students will be given logs to use to track hours and must have them initialed by the teacher. The teacher will check log sheets during the lecture meetings. The teacher will observe students as they practice teaching periodically throughout the program. Students will be given homework assignments at each lecture. Students are expected to complete the homework before the next lecture (Pass/Needs More Refinement). All logged self-practice, observation, and practice teaching hours must be completed within 2 month of the completion of the final lecture (Complete/Incomplete). (Additional fees will be charged for participants needing to utilize the studio beyond the scheduled time frame.)

Module 3: Apparatus Part 2 (100 hours)

Module 3 begins the internship, additional Pilates apparatus training including small props, Ladder Barrel, Pedi-Pole, Arm Chair, and taking the final exam. Successful completion of Module 2 is mandatory prior to taking Module 3. Students are required to complete the logged teaching hours, lecture and homework portions of Module 3 of the training prior to taking the final exam. Students are responsible for finding a facility to complete the internship teaching portion of the training. Some studios pay interns to teach, some do not pay until intern is fully certified. If there are no studios in your community to intern at, another option is to purchase equipment for your home and teach family and friends.

Upon successful completion of Module 3 which includes attending all lectures, passing all assessments, submitting the required logged hours, and passing the exam (80% needed to pass), a PRAJNA Pilates Apparatus Certificate will be issued to graduates. Plus, the graduate is qualified to apply to take the National Pilates Certification Program exam.

- Please see **Probation, Dismissal and Re-Admittance** policy under Pilates/yoga for how unexcused absences are handled.
- Some students may not pursue certification or registration as a teacher but are interested in deepening their personal practice and study of Universal Yoga® or Pilates. Please talk with Sheri Baemmert about attendance suggestions. You will be expected to arrive on time for sessions you plan to attend. You will also be expected to review any content from missed sessions in advance of the next session so that you have the same background as other participants.

Missed Sessions

Any missed sessions must be made up through watching the recordings and answering questions or with one of the primary instructors at \$150/hour. If you know that you will miss an entire day due to a prior commitment, please contact Sheri Baemmert at PRAJNA Advanced Studies Program in advance of signing up for the program to discuss options. We will be recording the lectures in case of emergencies or other unpredicted circumstances, but highly recommend attending in-person.

Additional Mentoring Required

Core concepts that are not understood or demonstrated by the student through homestudy, experiential learning or practice teaching may require additional mentoring by one of the lead instructors or assigned faculty and will be charged at \$150/hour.

Leave of Absense

In the event a student must discontinue due to mitigating circumstances beyond the student's control, the refund policy will be applied to any unused tuition. If the student has completed at least 60% of the course instruction, all attempts will be made to assist the student in completing either through participation in another program or with one-on-one mentoring with lead or other designated faculty at the rate of \$150/hour. PRAJNA Advanced Studies Program is not responsible for any additional travel costs that a student might incur to attend another program or to do one-on-one mentoring.

Completion Requirements

- Attendance at all scheduled sessions and make up of any missed sessions through watching the recorded lectures and any one-on-one mentoring that is needed with one of the faculty members at the student's own expense.
- Completion of homework assignments (Pass/Needs More Refinement). Students will be given verbal comments on homework from the teacher. A student may be asked to redo an assignment and will be given 2 additional opportunities within the program time to successfully complete the assignment.
- Development of a regular Pilates/yoga practice is expected.
- Pass the final exam if applying for certification (80% required to pass.) A failed exam will require retaking the exam for an additional fee.
- Payment of application fee and tuition and payment for any makeup hours or additional mentoring to meet completion requirements (Complete/Incomplete).

Student Records

An electronic copy of the student's completion certificate will be kept on file with PRAJNA Advanced Studies Program indefinitely. A duplicate certificate fee of \$30 may be charged. Records are private and can be accessed only by the teacher trainee or PRAJNA Advanced Studies Program.

Box 8366, Madison, WI 53708-8366.

Employment Services

PRAJNA Advanced Studies Program does not offer job placement services. We will help participants progress in their knowledge and ability to teach Universal Yoga and/or Pilates offering strategies and suggestions for employment. We do not offer career counseling or guarantee job placement.

Refunds for Withdrawal or Dismissal

The student will receive a full refund of all money paid if the student:

1. Cancels within the three-business-day cancellation period under SPS 406.03;
2. Acceptance was unqualified and the school did not secure a disclaimer under SPS 409.04;
3. Enrollment was procured as the result of any misrepresentation in the written materials used by the school or in oral representations made by or on behalf of the school.

Refunds will be made within 10 business days of cancellation.

A student who withdraws or is dismissed after attending at least one class, but before completing 60% of the instruction in the current enrollment period, is entitled to a prorata refund as follows:

At Least	But Less Than	Refund of Tuition:
1 unit/class	10%	90%
10%	20%	80%
20%	30%	70%
30%	40%	60%
40%	50%	50%
50%	60%	40%
60%	no	No refund

As part of this policy, the school may retain a one-time application fee of no more than \$300. The school will make every effort to refund prepaid amounts for books, supplies, and other charges. A student will receive the refund within 40 days of termination date. If a student withdraws after completing 60% of the instruction, and withdrawal is due to mitigating circumstances beyond the student's control, the school may refund a prorata amount.

A written notice of withdrawal is not required.

To make the training flow smoothly, students are encouraged to withdraw by notifying Sheri Baemmert via email or a mailing letter to PRAJNA Studio. But any mode of withdrawal will be recognized. Students will be administratively withdrawn after missing three (3) of consecutive sessions. Students will be refunded based on last date of attendance.

Students must return all materials given during the teacher training. If materials are not returned or are damaged, a \$500 fee will be charged for the materials.
